WILL IT BE A BOOM?

Indications of an Iron and Steel Storm Following the Calm.

SOME MANUFACTURE RS FEAR IT,

Because of Cutting and Slasi bing the South Has Inaugurated.

"That there is always a crulm before a storm," is an old saying, and iron manufacturers here both hope and farar that the dullness in trade at present will soon result in a boom in business. The great cut of the Thomas Iron Company in the price of pig metal, in order to shut out Southern competitors, it is believed will bring about a big revival in the iron trade.

President W. C. Cronemeyer, of the United States Tin Plate Compan y, one of the oldest and best-posted manufact arers in this section, was in the city yesterday. A representative of this paper had a talk with

him in his city office, and he said: "The iron trade all over the world is good at present, except in the United State s, and I believe there will be a boom here before I believe there will be a boom here before wery many months. I am afraid of booms, and I would like to see it avoided; but the Mallett went to the bank, drew \$1,000, and ball has been started rolling in that direction, and, unless something remarkable oclost. used it is in the foundries." "What do you think of the project of the consolidated mills of the West to make tin

"I think it is a good one, and, as soon as the tariff bill is passed, it will be a profitable enterprise. We will engage in the manufacture of tin plates as soon as the bill passes, and so will other firms. This will have the effect of circulating \$30,000,000 in this country each year, that has been sent across the water heretofore. The Republican party has promised the passage of this bill, and I believe it will be passed at the next session of Congress. It is possible, I understand, that an extra session will be called."

"Is it possible that the manufacturers will come together again and appoint a commit-tee to meet the Amalgamated Association on the scale question?" asked the reporter. NO COMMITTEE FOR HIM.

Mr. Cronemeyer expressed the same opinion held by other leading manufacturers, and said: "I do not think so. I will not have anything more to do with a conference committee of manufacturers. When the workers have prepared their scale of wages they can present it to me as an individual, and, if it is satisfactory, I will sign it; if not, I will point out the revisions I desire; and I believe other manufacturers will do

Several members of the Amalgamated Association were in the office of the organization yesterday, and they were asked who would succeed Mr. Weihe as President. The reply was: "Mr. Weihe, of course; we cannot get a better man for the position, and do

Now, brothers, let us strive to make these meetings a success. Let each and every brother do all in his power to bring as many people together as possible. Here is an opportunity rarely offered. It will cost you nothing but your presence, and I am sure you will hear something that will be very entertaining as well as instructive. Brother Wheat is an able man, and much can be learned by listening to one of his lectures.

Tired Out?

When through your day's work, do you feel tired out? Too tired to sleep? Get up next morning with an aching head? Do you know that you are running a great risk? Insanity, apoplexy, paralysis, all start this way.

Don't drug yourself. Use Paine's Celery Compound and save a big doctor's bill.

Mr. A. J. Burbeck, Newton Junction, N. H., says that his wife would be badly exhausted after a hard day's work, but a dessert spoonful of the Compound would make her feel nearly as strong as in the morning.

Physicians prescribe it. Many of them take it. Dr. J. H. Hanaford, Reading, Mass, is one of the best known doctors in the country. After he has labored more than usual, Paine's Celery Compound strengthens and refreshes him promptly.

Mrs. Burbeck was tired out from physical work; Dr. Hanaford, from mental work. Paine's Celery Compound is the great body and brain strengthener. Entirely vegetable, it cannot harm a child. Formula furnished to any physician.

It cures all nervous diseases. Purifies and enriches the blood. Succeeds where all else fails. Use it. It will give you strength. Make you feel like a new man.

I Would Have Been Dead,

Said Mr. Henry Robertson, "had I kept on in the way I was going. I had chronic bronchitis and a weakness of my left lung that was fast approaching consumption. I coughed and had great pressure and tightness across my lungs, with pain about my shoulder blades. My appetite was very poor, and I had sour belching of gas from my stomach all the time. I doctored with the best doctors I could hear of, but was fast getting worse. My kidneys also became diseased. I had pain across my back, bloating of the bowels, and the water was highly colored with a red, brick dust sediment. I became melancholy and discouraged and thought I could not live. Finally I began treatment with the physicians of the Polypathic Medical and Surgical Institute, who are specialists for chronic diseases, and although confined to the bed when I commenced treatment, and am 66 years old, my improvement was very rapid, and I feel that these physicians have saved my life. I am getting stronger every day and feel almost like a young man again.

To cure Mrs. Thomas Hatton, and she suffered on for 18 years. The aches and pains which she experienced in almost every part of her body was simply terrible. Those sharp, cutting pains across the small of her back and lower part of her body was almost unbearable. In fact she suffered with all those diseases and conditions peculiar to women. For three months her mind was unbalanced, and for months she was confined to her bed. She became very weak and emaciated, so that she only weighed 28 pounds. No one expected her to live, much less get entirely cured. After receiving three months' treatment with the physicians of the Catarrh and Dyspepsia Institute, 232 Penn avenue, who make a specialty of her disease, she says:

"In ever want any one to suffer as I have for the past 18 years. The condition of my case was much worse than has been described, and I am only too glad to testify to my complete cure by the doctors of the Catarrh and Dyspepsia Institute.

KAUFMANNS

MAGNETIC METHODS

Are Being Purloined and Pirated by Jealous Rivals,

but success slips through the fingers of imitators. The public knows that it is the unapproachable and matchless opportunities presented by Kaufmanns' that causes their puny, self-asserted rivals to squirm, squeal and scowl. To demonstrate how futile it is for chagrined competitors to successfully emulate our methods we have just placed on sale the following unexampled two bargains:

The Suits are made

Men's Fine Business

> Don't confound this offer with the stereotyped phrase of "Suits for so much, worth so much," so frequently indulged in by the Pittsburg clothiers. There is no imagination or fiction about this sale. It's a straight, downright, bona-fide offer. But call and see for vourself. You'll find these suits in sack and frock styles, in fine all-wool materials; make and fit being first-class.
